### **About AixSolve:**

AixSolve GmbH, founded in 2002, develops and produces broadcast equipment for video and audio processing. The AixSolve product portfolio covers the complete area of content contribution and distribution: Decoder, Encoder, Transcoder, Encrypter, Decrypter, Data Inserter (e.g. logo, ticker, advertisement etc.) and video stream Processor. With the modular approach AixSolve offers optimized solutions according to customer specific requirements. As a system integrator AixSolve provides project-specific developments and solutions. AixSolve develops and manufactures all products in Germany & Europe. For further information, please visit [www.aixsolve.de](http://www.aixsolve.de).

### **About Intronics:**

Intronics is determined to be the leading supplier of connectivity, security, networks and industrial solutions. Intronics is able to combine a broad range of products into creative, reliable and complete solutions for ICT, audiovisual, retail and industrial market segments.

The unique mix of know-how, logistic excellence and added value allow Intronics to be a valuable partner offering perfect balance in price and quality. For more information on Intronics, please visit [www.intronics.nl](http://www.intronics.nl).

**About Integrated Systems Europe:**

Launched in 2004, ISE is Europe's largest tradeshow for the professional AV and electronic systems industry. ISE 2012 will take place from 31 January to 2 February 2012, and is expected to draw over 750 exhibitors and more than 35,000 attendees to its Amsterdam RAI location. The event is a joint venture of the Custom Electronic Design and Installation Association (CEDIA) and InfoComm International®. For further information, please visit: [www.iseurope.org](http://www.iseurope.org).
